SRA350 GE (Encoder) PLC Automatic Bandsaws

The Sterling SRA350GE (Encoder) PLC builds on the straight cutting models (SRA320E, by adding in manual mitring. This fully-automatic cutting model can cut automatically without a length stop thanks to its PLC controlled encoder. The perfect machine for cutting down billets of material ready for further processing.

This a fully automatic machine in a pivot-action design ideally suited for cutting solid material, as well as pipes, profiles and beams in steel cutting, with a manual single mitre system.

The Siemens PLC controller on this saw enables the user to set-up a programme with 10 steps for automatic cutting, simply punch in your lengths and quantities, and let the saw do the work for you.
